Portfolio: <https://elenaticca.github.io/portfolio/>

Zurich, Switzerland | EU Citizen (Italy)

Senior Business Analyst with 10 years of experience in B2B SaaS and enterprise software, working in both product-led and client-facing environments. Specialised in requirements engineering, functional analysis and platform integrations. Translates business needs and system constraints into functional and non-functional requirements, technical specifications, use cases, acceptance criteria, business rules and UML/BPMN models. Partners with business stakeholders, Product, UX/UI and Engineering from discovery and scope definition through backlog refinement, validation and release readiness, reducing ambiguity and aligning product intent with technical delivery.

PROFESSIONAL EXPERIENCE

SENIOR BUSINESS ANALYST | PRODUCT & PLATFORM DELIVERY

Docebo Inc.

EdTech B2B SaaS | Global (Remote) | September 2022 - Present

- Lead requirements engineering and functional analysis across multiple product streams for a global B2B SaaS learning platform serving millions of users.
- Translate product and business needs into functional and non-functional requirements, technical specifications, use cases, acceptance criteria and UML models, defining workflows, business rules, edge cases and expected system behaviour before development and validation.
- Partner with Product Management, UX/UI, technical leads and delivery teams to define scope, assess feasibility, refine backlog items and resolve impacts and dependencies through implementation, testing and release.
- Use SQL analysis, product-usage data and customer feedback to validate assumptions, refine requirements and inform prioritisation.
- Lead functional analysis for platform and third-party integrations, defining API requirements, permission models, data flows, cross-system interactions, edge cases and downstream impacts. Selected integrations include Zoom, Microsoft Teams, GoToWebinar and Adobe Connect.
- Define functional requirements for AI-enabled initiatives, including Global Search and internal Copilot capabilities, covering use cases, expected behaviours, limitations and fallback logic from discovery through validation.

IT BUSINESS ANALYST | SOLUTION DELIVERY

Eustema SpA

LegalTech B2B SaaS | Italy (Remote) | October 2018 - September 2022

- Supported product evolution and client-specific implementations of a highly configurable LegalTech platform, translating operational and regulatory needs into functional and technical requirements, workflows, business rules, use cases and implementation documentation.
- Led workshops and stakeholder interviews involving hundreds of stakeholders across dozens of public-sector projects to elicit needs, define scope, validate processes and align business and technical stakeholders.
- Mapped business processes, application flows and user journeys to support solution design, technical feasibility assessment and implementation readiness.

- Defined integration and data migration requirements across distributed public-sector systems, documenting interfaces, data logic and cross-system dependencies with technical teams.
- Supported requirements validation, testing and release preparation, and produced user manuals, operational guides and training materials to improve operational readiness and adoption.

IT BUSINESS ANALYST | IT CONSULTANT

NS12 SpA

Transportation & Real Estate | Digital Transformation | Italy | January 2018 - September 2018

- Gathered and analysed business needs for transportation and real-estate digital transformation initiatives, producing functional requirements, workflows and implementation documentation.
- Mapped existing processes and contributed to the design of standardised digital workflows replacing manual activities.
- Supported testing and implementation through requirement clarification, issue analysis and user validation.

APPLICATION SUPPORT ANALYST

Infoclodio SRL

ERP & Legal Business Applications | Italy | July 2016 - December 2017

- Analysed application issues, clarified functional needs, configured ERP and legal business applications, and guided end users.
- Acted as the link between users and technical teams to maintain operational continuity and support effective issue resolution.

EDUCATION

- BSc in Computer Engineering - Roma Tre University

CERTIFICATIONS & TRAINING

- IREB Certified Professional for Requirements Engineering - Foundation Level (CPRE-FL)
- Scrum Fundamentals Certified (SFC) - SCRUMstudy
- AI Foundations: Technical, Ethical and Cultural Dimensions - University of Urbino Carlo Bo

CORE SKILLS & TOOLS

- **Requirements:** Requirements Engineering | Functional Analysis | Functional and Non-functional Requirements | Technical Specifications | Use Cases | Acceptance Criteria | Business Rules
- **Modelling & integrations:** BPMN 2.0 | UML | REST APIs | Data Flows | Permission Models
- **Tools:** Jira | Confluence | Productboard | Figma | FigJam | diagrams.net | BPMN.io | Zendesk
- **Data & analytics:** SQL | Pendo
